

Equipment. Service. Learning.

Explore these advantages. They're available only to Scantex yearbook clients.

Products for your school to keep

- Computers, digital cameras, professional photography equipment, software, hardware: these are many items available. Discuss this program with your Scantex representative.

Flexible scheduling. No fixed deadlines

- Four-week delivery: Approve your final proof in May for June delivery.
- Make changes to any pages of your yearbook throughout the production cycle.
- New, last-minute pages can include, for instance, your prom. Just ask.
- Prepare your own unique schedule to accommodate events throughout the year.

Basic services

- Complimentary "mugs" image conversion.
- File review and advice.
- Complimentary personalization labels.

Creative advantages

- Samples of prize-winning and area yearbook samples are supplied for your use each year.
- Over 250,000 stock photographs are available for your use
- Over two million "clip art" files are available for your use.
- 3D cameras are available for short-term use.
- Additional digital cameras and portable photo-studio equipment are available for short-term use.

Price and payment advantages

- Price guarantee: No price increases for the extent of your approved agreement.
- No deposit. No money down.
- Prepayment discount is offered each September.
- All courier and delivery costs are included.
- Scholarships are available to yearbook teams who meet the schedules they define.

Production advantages

- Three standard sizes—custom sizes and formats are available.
- Standard and customized template files supplied
- Electronic proofs (PDFs) provided for approval throughout the production cycle.
- Hard copy paper proofs in book form provided for your final approval.
- High fidelity "dotless" printing available.
- Consecutive pages of colour; for example, 1–8, 9–16. Consecutive colour pages are standard, not an option.
- School-specific FTP site, with password, for immediate file uploading, initial proofing, stock photographs, vector art and proof approvals.
- Three layer production support from industry-acknowledged experts.

School-specific learning programs

- In-class workshops available as needed.
- Yearbook-specific video tutorials supplied on CD and available on Scantex school's FTP sites.
- Personalized video tutorials that respond to specific yearbook team questions.
